The Brain Aneurysm Foundation Welcomes New Board Member P. Laxminarain

Hanover, MASS., July 2, 2018 – The Brain Aneurysm Foundation today announced that P. Laxminarain (Laxmin) has joined the board of directors.

Laxmin is a seasoned veteran in the medical devices industry with over 30 years of experience in management and consulting. His expertise is in global business strategy, portfolio management, business execution, and growth and talent development.

“We are very excited to welcome Laxmin to our board,” said Christine Buckley, Executive Director of the Brain Aneurysm Foundation. “The quality and breadth of knowledge he brings to the table, as well as his commitment to fulfilling the mission of the foundation, make him a vital asset and excellent addition to the board.”

Recently retired, Laxmin was most recently worldwide president at Codman Neuro, where he was responsible for developing and executing strategic growth for the Neuro devices business of Johnson & Johnson. During this time he was an effective global leader, driving improvements in the company and delivering consistent revenue growth.

“I am honored to join the board and look forward to contributing to the mission, raising awareness, education, support, advocacy and research funding for brain aneurysm disease,” said Laxmin.

Laxmin earned a Bachelor of Mechanical Engineering degree from Osmania University and later his MBA from the Indian Institute of Management. He lives in Wellesley, Massachusetts.

ABOUT THE BRAIN ANEURYSM FOUNDATION

Founded in Boston and now based in Hanover, Massachusetts, the Brain Aneurysm Foundation is the globally recognized leader in brain aneurysm awareness, education, support, advocacy and research funding.

The foundation’s mission is to provide information about and raise awareness of the symptoms and risk factors of brain aneurysms to prevent ruptures and subsequent death and disability; work with medical communities to provide support networks for patients and families; and advance research to improve patients’ outcomes and save lives.

Established in 1994, the foundation is led by Executive Director Christine Buckley and has a Medical Advisory Board that comprises more than 30 of the nation’s foremost aneurysm experts — neurologists, neurosurgeons, interventional neuroradiologists and other brain aneurysm specialists — from the country’s leading hospitals and universities.
