

2024 Brain Aneurysm & AVM Education & Support Group Online Event

The Brain Aneurysm and Arteriovenous Malformation (AVM) Educational & Support Group at The University of Kansas Hospital is designed to educate the patient, families and caregivers on the Brain, Brain vessels, Aneurysms and AVM's. We are proud to offer this online event for patients, family members and caregivers to expand knowledge and enhance physical and emotional wellbeing.

Presenter: Koji Ebersole, MD - Dr. Koji Ebersole is certified by the American Board of Neurological Surgery. In addition to comprehensive training in neurosurgery, Dr. Ebersole has completed an additional two years of fellowship training in minimally-invasive endovascular treatments utilizing the latest technologies. This background, which is unique in the Kansas City area, allows Dr. Ebersole to offer each patient a complete set of treatment options.

Tuesday, April 9 - Overview of the Brain Aneurysm and Arteriovenous Malformation (AVM) & Diagnosing a Neurovascular Disorder, Brain Aneurysm or AVM: MRIs CT, CTA & Arteriogram

Tuesday, July 9 - Surgery for Brain Aneurysm and Arteriovenous Malformation (AVM) & Endovascular Treatment for Aneurysm and AVM, Post-Procedural Lab Work, Anti-Coagulation Therapy and Follow-Up Surveillance Methods, MRI, CT

Tuesday, October 8 - Devices for the Treatment of Brain Aneurysms & Arteriovenous Malformation (AVM): Clips, Coils & Pipeline
