

BRAIN ANEURYSM FOUNDATION

30 YEARS OF IMPACT

2024 ANNUAL REPORT

OUR MISSION

Provide information about and raise awareness of the symptoms and risk factors of brain aneurysms to prevent ruptures and subsequent death and disability.

Work with medical communities to provide support networks for patients and families.

Advance research to improve patients' outcomes and save lives.

- Mario Zuccarello, MD** | University of Cincinnati

LEADERSHIP & STAFF

The Brain Aneurysm Foundation is also grateful for the service of our Board Members and Executive Committee. The members of these groups give very generously of their time, talents, and expertise to help the foundation fulfill its mission.

Board Members

Arlcia Albert

Sarah Houlton, PhD

Carolina Maier, PhD

Joy Mullin

Joseph Rooney

Elaine Schaller

Angela Shing

Karly Soulas

Vincent Tutino, PhD

Executive Committee

Thomas J. Tinlin

Chairman of the Board

Paul Games

Treasurer

Deidre A. Buckley, RN, NP

Secretary

Christine Buckley

President of the Board & Executive Director

Staff

Taylor Buckley | Director of Events

Martha DiLorenzo | Director of Donor Relations

Susie Frost | Event Coordinator

Grace Hilton | Director of Social Media + Digital Content

Lynn Nuttall | Director of Marketing + Communications

Maureen Zuluaga | Director Database Operations

Thank You for a Remarkable 2024

For 30 years, the Brain Aneurysm Foundation (BAF) has been turning the “what ifs” into reality—raising awareness, funding research, educating medical professionals, and supporting patients and families.

In 2024, thanks to your support, we:

- Awarded \$640,000 in research grants, including projects developing blood-based diagnostics and AI-driven outcome prediction.
- Educated over 6,000 medical professionals nationwide through PriMed lectures.
- Advocated in more than 200 Congressional offices for increased research funding.
- Hosted 150+ support meetings both in-person and online.
- Provided weekday office support to guide and connect patients and families.

Your commitment helps save lives by improving early detection, preventing misdiagnosis, and supporting those affected by brain aneurysms.

For three decades, the BAF community has been driving progress. Together, we are moving closer to a world without brain aneurysm ruptures.

Thank you for being part of this journey in 2024.

Warm regards,

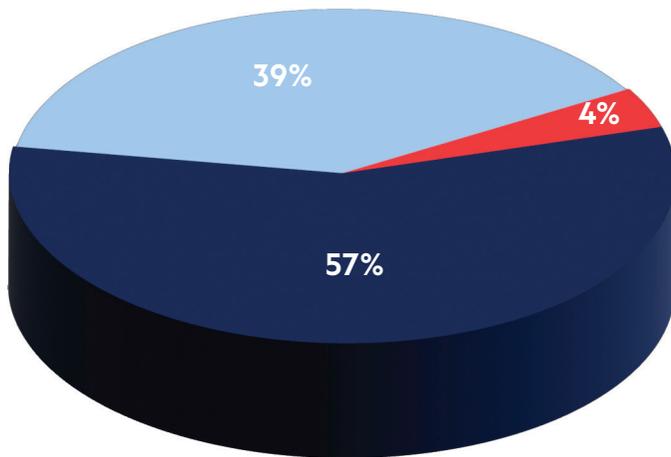

A handwritten signature in blue ink that reads "Christine J. Buckley". The signature is fluid and cursive, with a long, sweeping underline.

Christine J. Buckley, Executive Director

FINANCIAL SUMMARY

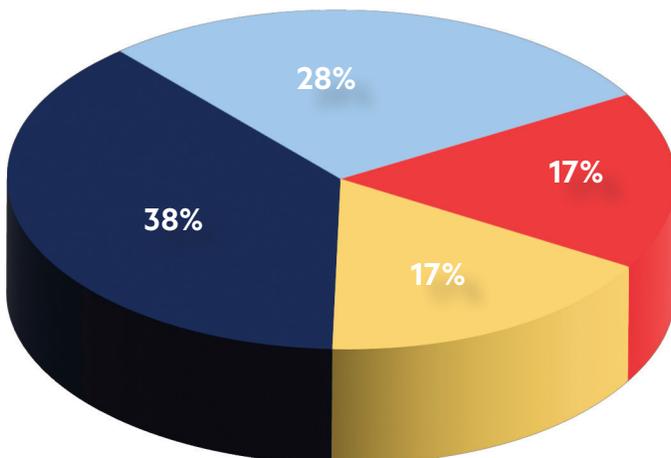

Since 1994, when the Brain Aneurysm Foundation was established as a public charity, our funding has been targeted to provide critical awareness, education, support, advocacy, and research funding to reduce the incidence of brain aneurysms, promote early detection, and improve patient outcomes.

The foundation has no endowment. Every dollar we raise is deployed to advance our mission to create wider awareness of brain aneurysms; to provide support for those affected by brain aneurysms; and to educate patients, their families, and the medical community about brain aneurysms. From year to year, the foundation strives to maintain its low overhead through vigilant governance of expenses and constant review of nonprofit best practices and methodologies.

REVENUES - \$2,030,896

- **Management and General**
\$389,921
- **Fundraising**
\$400,224

WHAT WE DO

Awareness

The Brain Aneurysm Foundation strives to raise awareness through many different outlets throughout the year. In 2024, we had over 270K visitors to our website and over 70K followers on our social media channels. Through our active presence on multiple channels, we were able to raise awareness about brain aneurysms, educate the public about symptoms and risk factors and also generate support for federal policies and funding that will benefit those affected by brain aneurysms.

Education

In 2024, the Brain Aneurysm Foundation expanded its partnership with DBC Pri-Med LLC to equip primary care physicians with the knowledge to identify early warning signs of a potential aneurysm rupture. Nearly 7,500 physicians attended these educational sessions over the course of the year.

Support

Support groups play a critical role in the continuum of care for survivors, offering essential guidance and connection for them, their families, and loved ones throughout recovery. The Brain Aneurysm Foundation partners with hospitals and healthcare organizations to develop high-quality support groups, and we're proud to have hosted 150+ support meetings both in-person and online.

Research

In September, the Brain Aneurysm Foundation proudly awarded \$640,000 to fund 14 vital research projects. With nearly \$6 million granted over the past 17 years, we remain committed to driving research that uncovers the causes of aneurysms, improves outcomes, and saves lives.

Advocacy

In May, 125 advocates from 24 states and Washington, D.C., joined forces on Capitol Hill to push for greater brain aneurysm research funding through Ellie's Law. Together, they met with 179 congressional offices in one day—amplifying the stories of survivors, caregivers, families who have lost loved ones, and the clinicians who care for them.
